Features & Benefits of Medeco Deadbolts:

- Solid brass collar spins under pressure to prevent wrench attacks.
- Steel shroud over bolt protects against “ice pick” type attacks.
- High security strike plate has a special box design with 2” screws that anchor the strike directly to the building structure behind the frame, preventing “kick-in” type attacks.
- Hardened steel bolt and bolt throwing mechanism are surrounded by a heavy-gauge tubular steel housing for maximum resistance to crowbar attacks.
- Solid brass design is secured with high-tensile steel mounting bolts for maximum resistance against hammer and prying attacks.
- Utility patented key control provides protection against the unauthorized duplication of keys.
