Richmond Security Partners With FeedMore to Support Zest Fest for a 4th Year

Richmond, VA (February 2016) - Local physical security solutions company Richmond Security will once again be a sponsor of the 2016 Zest Fest, FeedMore's Annual Gala benefiting area residents in need. President of Richmond Security, Stephen Wilkinson explains, "Most of us never consider the fact that there are hunger issues that exist in our own community. Through our support of FeedMore and sponsorship of their annual Zest Fest Fundraising event, we like many other local businesses can help bring this issue to the forefront of the general public."

Zest Fest is the premier fundraising event for FeedMore. It is an evening of great food from 18 of the area's premiere chefs, quality wine from Virginia's finest wineries and craft beer from local breweries. The public can enjoy bidding on items in the silent and live auctions all benefiting FeedMore. Proceeds from the evening go to feeding Central Virginia's residents in need. See more information or purchase tickets at feedmore.org.

Richmond Security celebrates 40 years in business this year, having served Central Virginia since 1976. From modest beginnings, it has grown into one of the largest physical security providers and full service locksmiths in the Richmond area. In addition to highly trained technicians and customer service professionals, they offer electronic access control, video surveillance, safes, and patented key control. They serve a myriad of markets including health care, manufacturing, education, retail, and residential. For more information the public can visit RichmondSecurity.com.

FeedMore is the umbrella organization of the Central Virginia Food Bank, Meals on Wheels Serving Central Virginia, and the Community Kitchen. By working together in a multi-tiered approach, FeedMore delivers operational efficiencies, increases feeding capacity, and improves meal quality to better fight hunger in the Central Virginia region. Through partnerships with business, faith-based, nonprofit, public, and other organizations, they provide essential food options to thousands of people in need, building a critical foundation for growth and health. The public can find out more at FeedMore.org.
