### **Richmond Security Celebrates 40 Years and Moves to a New and Larger Location**

Richmond, VA (May 11, 2016) - Local physical security solutions company, Richmond Security (RSI), announces their move to a new, larger location as they celebrate their fortieth anniversary this year. Opening as Richmond Lock and Safe in 1976 the company has grown into one of the largest physical security providers and full service locksmiths in Central Virginia.

In 2015 business for Richmond Security grew by more than 25% and their staff by 33%. In April 2016 the team moved to a new location at 491 Southlake Blvd in North Chesterfield. It is 7500 square feet and features an expanded showroom open to the public and showcasing some of their inventory, including safes, door hardware and video surveillance products. The new location increases their footprint by 250% and allows them to better support their customers and staff.

In addition to highly-trained technicians and customer service professionals, Richmond Security offers both home security and business security solutions. In home security they offer a wide variety of keys, high-quality door hardware, and a vast inventory of safes, as well as a few other specialized products and services. For business security needs, they offer patented key-control products, electronic access control systems, video surveillance equipment, security integration options (including alarm systems), and more. In an ever-changing industry the company stays abreast of the newest developments in technology in order to offer clients the most innovative products available.

On June 16, 2016 Richmond Security will celebrate their 40<sup>th</sup> Anniversary and the Grand Opening of their new location at 491 Southlake Blvd in North Chesterfield. Representatives from area businesses and non-profit organizations are invited to come out from 2:00 PM until 6:00 PM to tour the new space, learn about the newest trends and technology in the commercial security industry, and meet the team. There will be food and drink along with giveaways, and representatives from Avigilon, Bosch, and AMAG will be on site to showcase electronic security and video surveillance products and to answer questions.

For more information on the grand opening event or the products and services offered by this growing physical security solutions provider in Central Virginia, the public can visit [RichmondSecurity.com](http://RichmondSecurity.com).
